

Higher Futures

I would like to introduce Higher Futures (a Swindon and Wiltshire Local Enterprise Partnership programme). We are currently reaching out to local organisations to help raise the awareness of the support we can offer to local businesses.

In the absence of a university in this area Higher Futures supports businesses and the military community in Swindon and Wiltshire to develop their workforce from level 4 upwards (post A level education) in technical, soft skills and leadership and management.

We offer a comprehensive skills service which includes:

- Understanding your business and training needs
- Advice, guidance and options on various types of training available locally
- Information on free or funded training
- Introduction to our network of class-leading universities and providers from across the country
- Evaluation to ensure return on investment

A manager's toolkit training programme will be running in few months' time and will be delivered by University of South Wales. The content includes:

- Leadership (2 days)
- Marketing (2 days)
- Project management (2 days)
- Budget management (2 days)
- Access to tutorial support for the main assignment

On completion of the above modules and successful assessment, learners will have an ILM level 4 certificate in leadership and management.

The price has not yet been confirmed but will be circa £800
